Call for Workshops @LADC 2021

The 10th Latin-American Symposium on Dependable Computing (LADC 2021) will be held in Brazil at the beautiful city of Florianópolis/SC, from the 22nd to the 26th of November 2021. LADC is the major Latin-American event on computer systems dependability. All aspects of dependable and secure computer systems, systems of systems and digital engineering are within the scope of the conference, including fault tolerant architectures, protocols and algorithms, models for performance, dependability and security evaluation, experimentation and assessment of dependable and secure systems. LADC will be co-located with the XI Brazilian Symposium on Computing Systems Engineering (SBESC 2021), making it an opportunity for exchanging ideas with a wider community and finding new projects partners.

LADC 2021 welcomes researchers and practitioners from both dependability and security domains to **submit workshop proposals** addressing hot topics and challenges, promoting discussions and exchange of ideas still on an early stage, or acting as working sessions to make progress towards current issues.

Proposal Submission

Prospective workshop organizers should send their proposal (maximum recommended size is 2 pages in PDF) to the workshop co-chairs Nuno Laranjeiro (cnl@dei.uc.pt) and Ana Ambrosio (ana.ambrosio@omega7systems.com). These proposals should have the following structure:
• Title of the workshop
• A description of the workshop, including their goals, scope and relevance to the LADC community
• Expected general format of the workshop (regular paper presentations, poster presentations, invited talks, panel discussions, demo sessions, …).
• Information regarding the paper submission (namely, maximum paper length), the procedure for paper selection, promotion and expected number of participants
• Length (half-day or 1 day) of the workshop
• Information about previous editions, if any
• Brief bio of the workshop organizers, including their previous experience on organizing workshops, and a tentative list of possible program committee members

Important Dates

• Workshop proposal submission deadline: **June 30th, 2021**.
• Workshop acceptance notification to organizers: July 7th, 2021.

Workshop Chairs

Please email the workshop chairs for any question regarding workshops:

Nuno Laranjeiro
University of Coimbra, Portugal
cnl@dei.uc.pt

Ana Ambrosio
Omega7 Systems & National Institute for Space Research (INPE), Brazil
ana.ambrosio@omega7systems.com
